Proposed ±65,000 SF Hotel
Exit 19 Lodging LLC
528 Aviation Road
Town of Queensbury
Warren County, New York

### **Narrative**

#### Introduction

The applicant, **Exit 19 Lodging LLC**, is proposing to redevelop the site at 528 Aviation Road by constructing a new  $\pm 65,000$  SF, four-story, 110-room hotel in the Town of Queensbury. The site is located to the southeast of the intersection of I-87 and Aviation Road (NYS Route 254), northeast of the existing Home2 Hotel and south of the existing Ambrosia Diner. The new hotel is proposed to be constructed on a portion of a tax parcel which is identified as 302.05-1-93.1.

#### **Existing Conditions**

The parcel is currently vacant. The site is currently served by gravity sewer, water and other utilities, both on site and in the public right-of-way along Aviation Road.

### Zoning and Land Use Regulations

The subject parcel is located in the Enclosed Shopping Center (ESC) zoning district. In this district, a hotel is allowed by approval of Special Use Permit.

#### **Project Description**

The applicant proposes redeveloping the existing lot, by constructing a 110 room, four-story, ±65,000 SF hotel on an approximately ±2.5 acres. The applicant anticipates renovation of the existing site in the interest of providing appropriate site amenities for the new use, including parking, loading area(s), landscaping and site lighting appropriate utilities. In addition, the applicant proposes using an existing driveway and pedestrian access. In addition, the new hotel customers will use the driveway connection to Aviation Mall and Aviation Road.

#### **Building**

The structure will be ±16,250 sf at grade creating ±65,000 gross square feet of hotel space. The hotel will contain 110 guest rooms, common areas, hallways, a lobby, pool and gym as well as exterior amenity spaces.

#### **Water**

Water service is available by connection to the Queensbury Water Department 12-inch CIP main at the Aviation Road Right-of-Way by way of an existing 6-inch service. The new facility will use current / modern plumbing fixtures which typically have lown water saving flow rates. It is our understanding that the Queensbury Water Department, the local service provider, has the required residual capacity to serve this project.

#### **Sewage**

The Queensbury Consolidated Sanitary Sewer District currently serves this site. A new service lateral will connect to the existing private 8-inch sewer main along the southeasterly boundary of the site, which flows in a generally northeasterly direction to an eventual connection to the public sewer main along Aviation Road. It is our understanding that the Queensbury Consolidated Sanitary Sewer District has the required residual capacity to serve this project.

#### **Site and Access**

The site will be improved with new landscaping around the building and grass will be planted in other areas. All driving and parking areas will be paved and clearly striped and will accommodate the site and through traffic in a safe manner. Ingress/Egress easements will be provided by and to the subject parcel and adjacent owners to facilitate the interconnection of drives, shared parking and access throughout.

#### **Site Lighting**

Light poles and building mounted lighting will be installed to light areas for safety and security.

#### **Storm Water**

Storm water will be collected by means of an on-site stormwater drainage system and directed through an at grade detention / infiltration facility within the site. It is proposed that the offsite discharges associated with the one, ten and 100-year rainfall events will equal or represent a decrease in the existing discharge rate.
