HQ Powder Coating, Inc., an S-Corporation based in Whitehall, New York, is poised for significant expansion to meet growing market demands and capitalize on emerging opportunities in the powder coating industry. Founded by Joseph Mead, who built the company during the past 7 years, HQ Powder Coating has established itself as the premier provider of high-quality metal finishing services in the region. **B) Please provide narrative of project and the purpose of the project (new build, renovations, and/or equipment purchases). Identify specific uses occurring within the project. Describe any and all tenants and any/all end users:** Wood Creek Holding, LLC. was founded by Joseph Mead, Wayne Evans and Tina Evans. Wood Creek was established to facilitate the building of a new facility for the sole use of HQ Powder Coating. With the collaboration of the founders, Wood Creek has a solid strategy to accommodate HQ Powder Coating's needs to expand into the future.

**Describe the reasons why the Agency's Financial Assistance is necessary, and the effect the Project will have on the Applicant's business or operations. Focus on competitiveness issues, project shortfalls, etc. Your eligibility determination will be based in part on your answer (attach additional pages if necessary):** The pilot program will help Wood Creek by lowering the cost of the tax burden imposed on the land and building thus reducing the cost of the required monthly lease agreement between Wood Creek and HQ Powder Coating to satisfy the mortgage and tax burden of the project. This will allow HQ Powder Coating to maintain a cash flow that will allow for the growth of the business in the first crucial years of expansion into a new facility.

**The Project would not be undertaken but for the Financial Assistance provided by the Agency or, if the Project could be undertaken without Financial Assistance provided by the Agency, then the Project should be undertaken by the Agency for the following reasons (attach additional pages if necessary):** Without the Financial assistance of this pilot program and building material tax exemption, Wood Creek and HQ Powder Coating will have a greater business risk in taking on expansion of our powder coating facility. The risk of expanding HQ Powder Coating into a new facility with the amount of tax burden placed on Wood Creek will create a cash flow shortage for HQ Powder Coating. With the increased amount of monthly cost for the lease of the building, HQ will have a difficult time expanding into a new facility with a large monthly lease agreement payment. With this higher payment HQ will struggle to expand into the new facility with a cash flow that is less than optimal. The increased cost of labor, building costs and tax burden placed on HQ Powder Coating will make this project a difficult expansion. With the approval of a tax exemption on building material and the pilot program approval, the cost of the building project and providing Wood Creek the ability to lower the cost of the monthly lease agreement will dramatically increase the success of this project in turn allowing HQ Powder Coating to expand into the future.

**5 Warren Street, Suite 210, Glens Falls, NY 12801 Tel: (518) 792-1312**  
**Email: aweaver@warren-washingtonida.com**

**If the Applicant is unable to obtain Financial Assistance for the Project, what will be the impact on the Applicant and County/City/Town/Village? The tax burden on Wood Creek would make the Rent for HQ Powder Coating increase and will affect the Cash flow and ability to grow into the new facility. With this additional strain on the renter in paying higher rent this will make it very difficult for HQ Powder Coating to operate in the transition from a smaller facility to a larger facility ramping up production. With the high cost of labor and building costs this tax incentive is a must for HQ to be able to smoothly transition into a larger manufacturing facility. HQ powder feels with the business risk in expanding that the tax incentive is necessary to keep an optimal cash flow for growth in the first couple critical years of expansion.**
